METALCRAFT'S Pressure Relief Cushions

- Viscoelastic foam "*Developed For NASA*" that contours to the individual.
- Anatomically designed contouring that provides pressure relief, positioning, and stability.
- Flexible neoprene backed incontinence-proof covers that can be easily removed and machine washed.
- Lightweight to aid clients who transfer their cushions.
- Maintenance free - cannot leak or go flat!

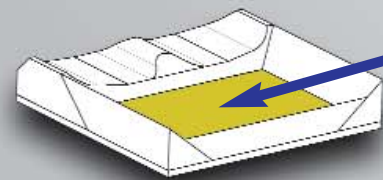

PR1600 & PR1800 Cushions Available Sizes					
Widths	14"	16"	18"	20"	22"
Lengths	14", 16"	16", 18"	16", 18"	18", 20"	18", 20"
Ischial Well(WxL)	6" x 7"	8" x 7"	10" x 7"	12" x 7"	14" x 7"

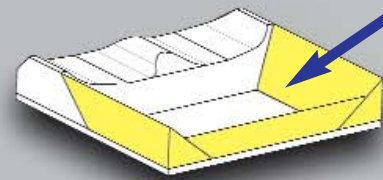

PR1600 Pressure Relief Cushion

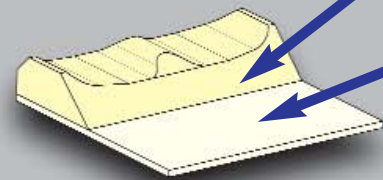

- Medium viscoelastic foam layer that shapes itself to the client.

- Soft viscoelastic foam for added pressure relief under the ischial tuberosities.

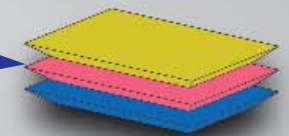

- Firm polyurethane foam layers form an "Ischial Well" to provide posterior and lateral support for the buttocks.

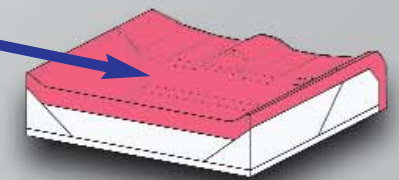

- Anterior section contoured to provide both anti-thrust, abduction and adduction support.
- An additional 1/2" thick layer of closed cell polyethylene foam to prevent "bottoming out".

PR1800 Pressure Relief Cushion

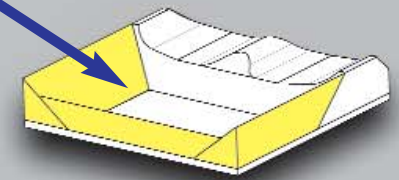

- Soft, medium, and firm pieces of viscoelastic foam so you can customize the "Ischial Well" for your client.

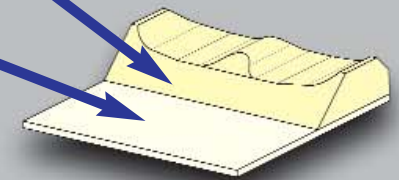

- Medium viscoelastic foam layer that shapes itself to the client.

- Firm polyurethane foam layers form an "Ischial Well" to provide posterior and lateral support for the buttocks.

- Anterior section contoured to provide both anti-thrust, abduction and adduction support.

- An additional 1/2" thick layer of closed cell polyethylene foam to prevent "bottoming out".

Metalcraft's Solid Seats

SS1000 Solid Seat

- Solid drop seat with black high density polyethylene (HDPE).
- Metal reinforcing pieces under the HDPE for added strength.
- Seat adjustable from 1" above to 3" below the seat tubes.
- Mounting hardware fits both 7/8" and 1" seat tubing.

SS1000 Solid Seat Available Sizes					
Wheelchair Width	14"	16"	18"	20"	22"
Width	10 3/4"	12 3/4"	14 3/4"	16 3/4"	18 3/4"
Length	16"	18"	18"	19"	19"

SS1100 Lite Solid Seat

- The **SS1100 Lite Solid Seat** has the same features as the SS1000 but only half the weight.

SS1100 Lite Solid Seat Available Sizes			
Wheelchair Width	14"	16"	18"
Width	10 3/4"	12 3/4"	14 3/4"
Length	16"	18"	18"
