

CB2000 CONTOURED BACK

Back Support Panel is made of a high-strength aluminum alloy laminated with a black textured vinyl and edged with a continuous neoprene edging – formed for a contoured fit. All mounting holes are a standard 1" between centers. Mounting hardware is included. The hardware allows the lower back to be mounted between 1" and 3½" behind the Push Cane, and the upper back between 1" and 5" behind the Push Cane. The Bi-Angular Back (BAB) provides for lumbar support. The standard hardware is designed to fit 7/8" to 1" tubing. Please inform us when other sizes are required.

DC2200 DEEP CONTOURED BACK

The DC2200 Deep Contoured Back Support Panel is made of a high-strength aluminum alloy laminated with a black textured vinyl and edged with a continuous neoprene edging – formed for a contoured fit. There are threaded headrest mounting holes across the top of the support panel and mounting hardware holes along both sides. All mounting holes are a standard 1" between centers. All necessary mounting hardware is included. The hardware allows the lower back to be mounted between 1" and 3½" behind the Push Cane, and the upper back between 1" and 5" behind the Push Cane. The deep side walls provide lateral support and the Bi-Angular Back (BAB) provides for lumbar support. The standard hardware is designed to fit 7/8" to 1" tubing. Please inform us if other sizes are required. Includes a removable vapor permeable waterproof cover.

PR1600 & PR1800 PRESSURE RELIEF SEAT CUSHIONS

These Medicare approved Pressure Relief cushions are made of the highest quality Visco-Elastic, open-cell and modified closed-cell foams. The design provides maximum contact area with cushion surfaces. The layering of the foam provides excellent positioning, stability and pressure relief. The PR1600 cushion is ready to go for excellent pressure relief. The PR1800 Pressure Relief cushion has the added versatility of (3) three different density Ischial contact foams that can be easily changed. The cushion is covered with a waterproof zippered black neoprene backed nylon cover that has anti-skid fabric on the bottom side.

SS1000 & SS1100 LITE, SOLID SEATS

The **SS1000 Solid Seat** is a drop seat design, made of a durable black HDPE 3/8" thick, with a matte finish. Metal reinforcing pieces are mounted under the HDPE for added strength. Hole pattern accommodates 1" mounting increments. Hardware adjusts from 1" above tube frame to 3" below tube frame. Fits most manual and power chairs. The standard hardware is designed to fit 7/8" to 1" tubing. Please inform us when other sizes are required. The **SS1100 Lite Solid Seat** is the same as the SS1000 with one exception, it has only half the weight.
